Gondolas Adopted As Newest Fad by Society in Miami

Canals Through Resort Are Dotted With Craft Guided by Gondoliers From Nassau in True Fashion

Special Dispatch to The Tribune

MIAMI, Fla., March 4.—The gondola is being adopted by socially prominent visitors here in true continental fashion, the canals through Miami Beach providing the setting for many interesting moonlight parties. The gondoliers are natives from Nassau.

The midwinter regatta promises to be the most brilliant and picturesque than in previous seasons. The committee has added several new features to the already large list. The proceeds will go toward the Boy Scouts.

One of the features of the regatta is the chance race, which is to be free for all regardless of size and speed of the boat. The first boat to cross the line will be awarded as many tickets as there are entries. The boat gets one ticket less, and so on until the last boat draws only one ticket. Then all tickets will be shaken up in a hat and drawn out, one by one, and when "Chance" is called the next ticket drawn will be entitled to the first prize. In the same way the second prize is drawn. The advantage of fast sailing is that the earlier the boat is in the greater number of chances it has.

The Flamingo Hotel, through Charles H. Krom, the manager, will award this chance prize.

The regatta event, the entire program will be the yachtsmen's ball at the Casino St. John on March 10, when the prizes will be distributed.
